The Honorable Board of Supervisors  
County of Los Angeles  
383 Kenneth Hahn Hall of Administration  
500 West Temple Street  
Los Angeles, California 90012

**Re: CONDITIONAL USE PERMIT NUMBER 2006-00018-(2)  
SECOND SUPERVISORIAL DISTRICT/THREE-VOTE MATTER**

Dear Supervisors:

Your Board previously conducted a hearing regarding the above-referenced permit which proposes a 60-unit condominium development in the Carson Zoned District. At the completion of the hearing, you indicated an intent to approve the permit and instructed us to prepare findings and conditions for approval. Enclosed are findings and conditions for your consideration.

Very truly yours,

RAYMOND G. FORTNER, JR.  
County Counsel

By   
RICHARD D. WEISS  
Assistant County Counsel  
Property Division

APPROVED AND RELEASED:

**FINDINGS OF THE BOARD OF SUPERVISORS  
AND ORDER  
CONDITIONAL USE PERMIT NUMBER 2006-00018-(2)**

1. The Los Angeles County Regional Planning Commission ("Commission") conducted a noticed public hearing on Conditional Use Permit No. 2006-00018-(2) on February 28, 2007. Conditional Use Permit Case No. 2006-00018-(2) was heard concurrently with Zone Change No. 2006-00002-(2) and Vesting Tentative Tract Map No. 065157. The Board of Supervisors ("Board") conducted its noticed hearing on the aforementioned applications on October 9, 2007.
2. The applicant, Don Wilson Builders, representing Kodaira Family Limited Partnership, is proposing a condominium development of 60 detached units with two covered parking spaces. Approximately 1.61 acres (36 percent of the subject property) of open area are provided within the development as well as individual private areas and landscaped common courtyard areas.
3. A conditional use permit ("CUP") is required to ensure compliance with the proposed - DP zone pursuant to Section 22.40.040 of the Los Angeles County Code ("County Code") to ensure development on the site is consistent with an approved development program.
4. The subject site is located at 22700 Meyler Avenue in the Carson Zoned District.
5. The rectangularly-shaped property is 5.22 gross acres (4.38 net acres) in size with level topography.
6. Access to the proposed development is provided by Meyler Avenue, a 50-foot wide dedicated street, and 228th Street, a 60-foot wide dedicated street.
7. The project site is currently zoned A-1 (Light Agricultural - 5,000 Square Feet Minimum Required Lot Area) which zoning was established by Ordinance No. 6529 and became effective on October 6, 1954. The project proposes a zone change to R-2-DP (Two Family Residential - 5,000 Square Feet Minimum Required Lot Area - Development Program).
8. Surrounding zoning includes A-1 to the north and west and R-1 (Single-Family Residence - 5,000 Square Feet Minimum Required Lot Area) to the east and south.
9. The subject property consists of two lots currently used as a nursery. Surrounding uses include single-family residences, multi-family residences, and vacant properties to the north, and single-family residences to east, west, and south.

10. The project is consistent with the proposed R-2-DP zoning classification. Detached units are permitted in the R-2 zone pursuant to Section 22.20.170 of the County Code. The proposed density of 60 dwelling units is consistent with the maximum 60 dwelling units that can be accommodated by the R-2 zoning.
11. The property is depicted in the Low Density Residential ("1") land use category of the Los Angeles Countywide General Plan ("General Plan"). The proposed 60 dwelling units, approximately 11.47 dwelling units per acre, exceed the density allowed under the Low Density Residential category. However, the General Plan supports concentrated urban development. Specifically, "infill" residential development at "slightly higher" densities may be permitted (i.e., infill parcels designated for a Low Density Residential density may be developed at the Low-Medium Residential density of six to 12 dwelling units per acre).

To qualify for the higher density, a project must comply with the following criteria:

- a. The proposed project will not disrupt sound residential neighborhoods nor adversely affect the character of the established community;

The proposed project will not disrupt the character of the established neighborhood which consists mainly of single family homes with multi-family buildings located on Meyler and 228th Streets within a 500-foot radius. The project proposes one multi-family lot with 60 detached condominiums which is similar in density and development to the surrounding neighborhood.

- b. The proposed project site is of sufficient size to accommodate design features (setbacks, landscaping, buffering, etc.) necessary to ensure compatibility with surrounding uses;

While the proposed project does not meet the criteria for sufficient lot size to accommodate density, it does meet the criteria for landscaping and guest parking. Each unit will have a private yard with a minimum of 250 square feet and the project will provide 16 guest parking spaces, one more than what is required.

- c. The proposed project will not overburden existing public services and facilities;

The proposed project will not overburden existing public services or facilities as it has been reviewed by the Los Angeles County Departments of Public Works ("Public Works"), Fire, Parks and Recreation, Health Services, and Regional Planning ("Regional Planning"), and they have all issued appropriate clearances.

- d. The proposed use will not disrupt or adversely impact local traffic and parking conditions; and

The proposed project has been reviewed by the Traffic and Lighting Division of Public Works and it has been determined that it will not disrupt or adversely affect local traffic. This project will provide a two-car garage with each unit as well as 16 guest parking spaces and will not disrupt the parking conditions in the surrounding neighborhood.

- e. Compatibility of the proposed project with surrounding uses, in terms of scale, intensity, and design, is ensured through specific site plan review.
- 12. Zone Change No. 2006-00002-(2) is a related request to authorize change of zone of A-1 (Light Agricultural) to R-2-DP (Two Family Residential - Development Program). The Development Program designation will ensure the development occurring after rezoning will conform to approved plans and will ensure compatibility with the surrounding area. As applied in this case, the CUP will restrict the development of the rezoned site to the proposed residential development as shown on the site plan marked "Exhibit A." No other development will be permitted on the property unless a new CUP is first obtained.
  - 13. Vesting Tentative Tract Map No. 065157 is a related request to create one multi-family residential lot with 60 new detached condominium units on 5.22 gross acres.
  - 14. Approval of the vesting tentative tract map and CUP will not become effective until the Board has adopted an ordinance effecting the proposed change of zone, and such ordinance has become effective.
  - 15. The applicant's site plan, labeled as "Exhibit A," depicts a 5.22-acre rectangularly-shaped property developed with 60 detached condominium units within an enclosed development. The residential units are arranged along the four main internal private driveways. Two points of entry and exit are proposed on Meyler Avenue and 228th Street. Sixteen guest parking spaces are provided along the two private driveways fronting on Meyler Avenue. Four spaces will be located on each side of the driveways for a total of eight spaces at both entrances. For the Los Angeles County Fire Department ("Fire Department"), two hammer head turnarounds are also proposed. No guest parking spaces or hammer head turnarounds are proposed for the two private driveways fronting on 228th Street. Of the 60 detached condominiums units, individual units range in size from 1,617 to 1,966 square feet. The units reach a maximum height of 25 feet, three inches. Each unit has two covered parking spaces. Combined with the 16 guest parking spaces, the project provides a total of 136 parking spaces. Approximately 1.6 acres (36 percent of the subject property) of open area are provided within the development as well as individual private areas and

landscaped common courtyard areas. Grading consists of 3,000 cubic yards of cut and fill to be balanced onsite. A maximum six-foot wall is proposed along the perimeter of the property to provide a buffer from adjacent residential homes.

16. As part of the development program, the applicant is requesting modification of the maximum permitted wall height of three-and-one-half feet in the front yard setback to allow a six-foot high masonry wall, as depicted on the approved Exhibit "A."
17. Prior to the hearing before the Commission, one comment letter was received in opposition to the project, expressing concerns related to existing congestion on Meyler Avenue and 228th Street and suggesting that both streets are unable to accommodate additional traffic from the project. Staff also received one telephone call from an adjoining property owner regarding loss of privacy due to the proposed two-story residences extending above the proposed six-foot high wall.
18. During the Commission's February 28, 2007 public hearing, a presentation from staff as well as testimony from the applicant and the public was received.
19. Staff provided comments that the multi-family lot with 60 new detached condominium units was consistent under R-2-DP zoning. Staff also indicated that the CUP would allow a modification of the yard requirements to permit over-height walls of a maximum six feet tall within the front yard (westerly property boundary).
20. The applicant's representative stated that they tried to create a condominium project that would be similar in character to the surrounding single-family homes. The applicant's representative also stated that each unit would have private front and rear yards.
21. The opposition testified that the proposed development would increase traffic congestion within the surrounding local streets. The opposition also stated that they had concerns related to increase of off-site street parking due to multiple families residing in the condominium units.
22. During the public hearing, the Commission asked if the two existing cul-de-sacs could be used as tot lots, private parks, or additional guest parking. The Commission also inquired if proposed units could be attached creating more open space. The applicant's representative stated that a private park was not necessary since 10 public parks existed within a 1½-mile radius of the project site. The applicant's representative indicated that he had met with homeowners within a 300-foot wide radius and they preferred this type of development on the subject property.

23. On February 28, 2007, after taking all testimony, the Commission closed the public hearing and indicated its intent to adopt the Mitigated Negative Declaration; approve Vesting Tentative Tract Map No. 065157, with modifications as discussed; and Conditional Use Permit No. 2006-00018-(2), with final review of the redesign by the Los Angeles County Subdivision Committee and instructed staff to prepare the final documents for approval.
24. A revision with changes was submitted on March 20, 2007, and was cleared by the Subdivision Committee on May 1, 2007.
25. The Board conducted its duly noticed hearing on the proposal on October 9, 2007. No testimony in opposition to the proposal was received during the hearing.
26. As a condition of approval of this grant, the permittee shall be required to comply with all applicable conditions as set forth in Section 22.40.070 of the County Code.
27. An Initial Study was prepared for this project in compliance with the California Environmental Quality Act (Public Resources Code section 21000 et. seq.) ("CEQA"), the State CEQA Guidelines, and the Environmental Document Reporting Procedures and Guidelines of the County of Los Angeles. The Initial Study identified potentially significant effects of the project on traffic and environmental safety. The applicant made or agreed to revisions in the project that would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur. The Initial Study and project revisions showed that there is no substantial evidence, in light of the whole record before the Board, that the project, as revised, may have a significant effect on the environment. Based on the Initial Study and project revisions, a Mitigated Negative Declaration has been prepared for this project. The conditions or changes in the proposed project that are necessary in order to ensure the proposed project will not have a significant effect on the environment have been included in the Mitigation Monitoring Program.
28. After consideration of the Mitigated Negative Declaration and Mitigation Monitoring Program, together with any comments received during the public review process, the Board found on the basis of the whole record before it that there is no substantial evidence the project, as revised, will have a significant effect on the environment, found the Mitigated Negative Declaration reflected the independent judgment and analysis of the Board, and adopted the Mitigated Negative Declaration and Mitigation Monitoring Program.
29. This project has an effect on fish and wildlife resources. Therefore, the project is not exempt from California Department of Fish and Game fees pursuant to section 711.4 of the California Fish and Game Code.

30. Approval of this subdivision is conditioned on the permittee's compliance with the attached conditions of approval as well as the conditions of approval for Vesting Tentative Tract Map No. 065157 and the Mitigation Monitoring Program.
31. The applicant has demonstrated the suitability of the subject property for the proposed use. Establishment of the proposed use at such location is in conformity with good zoning practice. Compliance with the conditions of approval will ensure compatibility with surrounding land uses and consistency with all applicable General Plan policies.
32. The location of the documents and other materials constituting the record of proceedings upon which the Board's decision is based in this matter is Regional Planning, 13th Floor, Hall of Records, 320 West Temple Street, Los Angeles, California 90012. The custodian of such documents and materials shall be the Section Head of the Land Divisions Section, Regional Planning.

**BASED ON THE FOREGOING, THE BOARD OF SUPERVISORS CONCLUDES:**

- A. That the proposed use with the attached conditions and restrictions will be consistent with the adopted General Plan;
- B. With the attached conditions and restrictions, that the requested use at the proposed location will not adversely affect the health, peace, comfort, or welfare of persons residing or working in the surrounding area; will not be materially detrimental to the use, enjoyment, or valuation of property of other persons located in the vicinity of the site; and will not jeopardize, endanger, or otherwise constitute a menace to the public health, safety, or general welfare;
- C. That the proposed site is adequate in size and shape to accommodate the yards, walls, fences, parking and loading facilities, landscaping, and other development features prescribed in Title 22 of the County Code, or as is otherwise required in order to integrate said use with the uses in the surrounding area;
- D. That the proposed site is adequately served by highways or streets of sufficient width and improved as necessary to carry the kind and quantity of traffic such use would generate, and by other public or private service facilities as are required; and
- E. That such development program provides necessary safeguards to ensure completion of the proposed development by the applicant forestalling substitution of a lesser type of development contrary to the public convenience, welfare, or development needs of the area.

**THEREFORE, THE BOARD OF SUPERVISORS:**

1. Indicates that it previously adopted the Mitigated Negative Declaration and certified that it had been completed in compliance with CEQA and the State and County guidelines related thereto.
2. Approves Conditional Use Permit Case No. 2006-00018-(2) subject to the attached conditions.

**CONDITIONS OF APPROVAL**  
**CONDITIONAL USE PERMIT NUMBER 2006-00018-(2)**

1. This grant authorizes the use of the 5.22-acre subject property for a development program of a maximum total of 60 detached residential condominium units on one multi-family lot, as depicted on the approved Exhibit "A," subject to all of the following conditions of approval.
2. Unless otherwise apparent from the context, the term "permittee" shall include the applicant and any other person, corporation, or entity making use of this grant.
3. This grant shall not be effective for any purpose until:
  - a. The permittee, and the owner of the subject property if other than the permittee, have filed at the office of the Los Angeles County Department of Regional Planning ("Regional Planning") their affidavit stating that they are aware of, and agree to accept, all the conditions of this grant and that the conditions have been recorded as required by Condition No. 6, and until all required monies have been paid pursuant to Condition Nos. 7, 9, and 45;
  - b. An ordinance changing the zoning of the property from A-1 (Light Agricultural - 5,000 Square Feet Minimum Required Lot Area) to R-2-DP (Two Family Residential - 5,000 Square Feet Minimum Required Lot Area), as recommended in Zone Change Case No. 2006-00002-(2), has been adopted by the Board of Supervisors and has become effective.
4. If any provision of this grant is held or declared to be invalid, the permit shall be void and the privileges granted hereunder shall lapse.
5. Notice is hereby given that any person violating a provision of this grant is guilty of a misdemeanor. Notice is further given that the Regional Planning Commission or Hearing Officer may, after conducting a public hearing, revoke or modify this grant, if it is found that these conditions have been violated or that this grant has been exercised so as to be detrimental to the public health or safety or so as to be a nuisance.
6. Prior to the use of this grant, the terms and conditions of the grant shall be recorded in the office of the Los Angeles County Recorder. In addition, upon any transfer or lease of the subject property during the term of this grant, the permittee shall promptly provide a copy of the grant and its terms and conditions to the transferee or lessee, as applicable, of the subject property.

7. The subject property shall be developed and maintained in full compliance with the conditions of this grant and any law, statute, ordinance, or other regulation applicable to any development or activity on the subject property. Failure of the permittee to cease any development or activity not in full compliance shall be a violation of these conditions. Prior to the use of this grant, the permittee shall deposit with the County of Los Angeles ("County") the sum of \$750. These monies shall be placed in a performance fund, which shall be used exclusively to compensate Regional Planning for all expenses incurred while inspecting the premises to determine the permittee's compliance with the conditions of approval. The fund provides for five biennial inspections. The inspections shall be unannounced.
8. If additional inspections are required to ensure compliance with the conditions of this grant, or if any inspection discloses that the property is being used in violation of any condition of this grant, the permittee shall be financially responsible and shall reimburse Regional Planning for all additional inspections and for any enforcement efforts necessary to bring the subject property into compliance. Inspections shall be made to ensure compliance with the conditions of this grant as well as adherence to development in accordance with the approved site plan on file. The amount charged for additional inspections shall be the amount equal to the recovery cost at the time of payment (currently \$150 per inspection).
9. Within 15 days of the approval date of this grant, the permittee shall remit processing fees payable to the County in connection with the filing and posting of a Notice of Determination in compliance with section 21152 of the Public Resources Code for the proposed project, which includes Zone Change Case No. 2006-00002-(2), Vesting Tentative Tract Map No. 065157, and Conditional Use Permit No. 2006-00018-(2). The project is not *de minimus* in its effect on fish and wildlife and in order to defray the cost of wildlife protection and management, the permittee is responsible for the payment of fees associated with the Certificate of Fee Exemption established by the California Department of Fish and Game pursuant to section 711.4 of the Fish and Game Code. The current fee amount is \$1,850. No land use project subject to this requirement is final, vested, or operative until the fee is paid.
10. The permittee shall defend, indemnify, and hold harmless the County, its agents, officers, and employees from any claim, action, or proceeding against the County or its agents, officers, or employees to attack, set aside, void, or annul this permit approval, which action is brought within the applicable time period of Government Code section 65009 or any other applicable limitation period. The County shall notify the permittee of any claim, action, or proceeding and the County shall reasonably cooperate in the defense.

11. In the event that any claim, action, or proceeding as described above is filed against the County, the permittee shall within 10 days of the filing pay Regional Planning an initial deposit of \$5,000 from which actual costs shall be billed and deducted for the purpose of defraying the expense involved in Regional Planning's cooperation in the defense, including but not limited to, depositions, testimony, and other assistance to the permittee or permittee's counsel. The permittee shall also pay the following supplemental deposits, from which actual costs shall be billed and deducted:
  - a. If during the litigation process, actual costs incurred reach 80 percent of the amount of deposit, the permittee shall deposit additional funds sufficient to bring the balance up to the amount of the initial deposit. There is no limit to the number of supplemental deposits that may be required prior to completion of the litigation; and
  - b. At the sole discretion of the permittee, the amount of an initial or supplemental deposit may exceed the minimum amounts defined herein.

The cost for collection and duplication of records and other related documents will be paid by the permittee in accordance with Section 2.170.010 of the Los Angeles County Code ("County Code").

12. This grant shall expire unless used within two years after the recordation of the final map for Vesting Tentative Tract Map No. 065157. In the event that Vesting Tentative Tract Map No. 065157 should expire without the recordation of a final map, this grant shall terminate upon the expiration of the tentative map. Entitlement to the use of the property thereafter shall be subject to the regulations then in effect.
13. No grading permit shall be issued prior to final map recordation, unless otherwise permitted by Regional Planning.
14. The subject property shall be graded, developed, and maintained in substantial compliance with the approved tentative tract map. An amended or revised tentative tract map approved for Vesting Tentative Tract Map No. 065157 may, at the discretion of the Director of Regional Planning, constitute a revised Exhibit "A." All revised plans require the written authorization of the property owner.
15. All development shall comply with the requirements of Title 22 of the County Code (Zoning Ordinance) and of the specific zoning of the subject property unless specifically modified by this grant, as set forth in these conditions, including the approved Exhibit "A," or a revised Exhibit "A" approved by the Director of Regional Planning.

16. Submit a copy of the project Covenants, Conditions and Restrictions ("CC&Rs") and maintenance agreements and covenants to Regional Planning for review and approval.
17. The development of the subject property shall comply with all requirements and conditions approved for Vesting Tentative Tract Map No. 065157.
18. The following modifications to the development standards shall apply:
  - a. Modification of the maximum permitted wall height of three-and-one-half feet in the front yard setback to allow a six-foot high masonry wall, as depicted on the approved Exhibit "A."
19. No structure shall exceed 35 feet in height, except for chimneys and rooftop antennas. Prior to any issuance of a building permit, a site plan including exterior elevations and major architectural features shall be submitted to and approved by the Director of Regional Planning, as a revised Exhibit "A," to ensure compliance.
20. A minimum of 136 automobile parking spaces, as depicted on the approved Exhibit "A" (dated March 20, 2007) or on an approved revised Exhibit "A," shall be provided and continuously maintained on the subject property, developed to the specifications listed in Section 22.52.1060 of the County Code. There shall be at least two covered parking spaces designated for each dwelling unit. There shall be at least 16 guest parking spaces distributed throughout the project site as depicted on the approved Exhibit "A" (dated March 20, 2007) or an approved revised Exhibit "A." The required parking spaces shall be continuously available for vehicular parking only and shall not be used for storage, automobile repair, or any other unauthorized use. Continual availability and maintenance of required parking spaces shall be provided for in the CC&Rs.
21. All utilities shall be placed underground. Prior to the issuance of any building permits, the permittee shall provide evidence that contractual arrangements have been made with the local utilities to install underground all new facilities necessary to furnish services in the proposed development.
22. All structures shall comply with the requirements of the Division of Building and Safety of the Los Angeles County Department of Public Works ("Public Works").
23. Detonation of explosives or any other blasting device or material is prohibited unless required permits have been obtained and adjacent property owners have been notified.

24. All grading and construction on the subject property and appurtenant activities, including engine warm-up, shall be restricted to the hours between 7:00 a.m. and 6:00 p.m. No Saturday, Sunday, or holiday operations are permitted. All stationary construction noise sources shall be sheltered or enclosed to minimize adverse effect on nearby residences and neighborhoods. Generator and pneumatic compressors shall be noise protected in a manner that will minimize noise inconvenience to adjacent residences.
25. The permittee shall implement a dust control program during grading and construction to the satisfaction of the Director of Regional Planning and the Director of Public Works.
26. All material graded shall be sufficiently watered to prevent excessive amounts of dust during the construction phase. Watering shall occur at least twice daily with complete coverage, preferably in the late morning and after construction or grading activities is done for the day. All clearing, grading, earth moving, or excavation activities shall cease during periods of high wind (i.e., greater than 20 mph average over one hour) to prevent excessive amounts of dust.
27. The permittee shall, upon commencement of any grading activity allowed by this grant, diligently pursue all grading to completion.
28. No construction equipment or vehicles shall be parked or stored on any existing public or private streets.
29. The permittee shall obtain all necessary permits from Public Works and shall maintain all such permits in full force and effect as required throughout the life of this permit.
30. All construction and development within the subject property shall comply with the applicable provisions of the County Building Code and the various related mechanical, electrical, plumbing, fire, grading, and excavation codes as currently adopted by the County.
31. All structures, walls, and fences open to public view shall remain free of extraneous markings, drawings, or signage. These shall include any of the above that do not directly relate to the use of the property, or that do not provide pertinent information about the premises. The only exceptions shall be seasonal decorations or signage provided under the auspices of a civic or non-profit organization.
32. In the event any such extraneous markings occur, the permittee shall remove or cover said markings, drawings, or signage within 24 hours of such occurrence, weather permitting. Paint utilized in covering such markings shall be of a color that matches, as closely as possible, the color of the adjacent surfaces.

33. The permittee shall utilize water-saving devices and technology in the construction of this project consistent with the County Building and Plumbing Codes.
34. The property shall be developed and maintained in compliance with all applicable requirements of the Los Angeles County Department of Public Health ("Public Health"). Adequate water and sewage disposal facilities shall be provided to the satisfaction of said department.
35. If during construction of the project soil contamination is suspected, construction in the area shall stop, and appropriate health and safety procedures shall be implemented to the satisfaction of Public Health. If it is determined that contaminated soils exist, remediation shall be conducted to the satisfaction of Public Health and the California Regional Water Quality Control Board.
36. Prior to the issuance of any building permit, the permittee shall demonstrate compliance with State Seismic Hazard Safety laws to the satisfaction of Public Works.
37. Prior to the issuance of any grading permit, the project design shall provide for the filtering of flows to capture contaminants originating from the project site to the satisfaction of and approval by Public Works.
38. The permittee shall comply with the Standard Urban Stormwater Mitigation Plan requirements to the satisfaction of Public Works.
39. During construction, all large-size truck trips shall be limited to off-peak commute periods.
40. During construction, the permittee shall obtain a Caltrans transportation permit as necessary for any transportation of heavy construction equipment and/or materials which requires the use of oversized-transport vehicles on state highways.
41. Prior to the issuance of any grading or building permit, a site plan shall be submitted to and approved by the Director of Regional Planning indicating that the proposed construction and/or associated grading complies with the conditions of this grant and the standards of the zone.
42. The following development program conditions shall apply:
  - a. No building or structure of any kind except a temporary structure used only in developing the property according to the development program shall be built, erected, or moved onto any part of the property;

- b. No existing building or structure which under the program is to be demolished shall be used;
  - c. No existing building or structure which, under the program, is to be altered shall be used until such building or structure has been so altered;
  - d. All improvements shall be completed prior to the occupancy of any structures within each phase of development to the satisfaction of the Director of Regional Planning; and
  - e. Where one or more buildings in the projected development are designated as primary buildings, building permits for structures other than those so designated shall not be issued until the foundations have been constructed for such primary building or buildings.
43. Record a covenant with the County agreeing to comply with the required environmental mitigation measures. Prior to recordation, submit a copy of the covenant to the Director of Regional Planning for approval.
44. The environmental mitigation measures are incorporated herein by reference and made conditions of this grant. As a means of ensuring the effectiveness of the mitigation measures, the permittee shall submit annual mitigation monitoring reports to the Director of Regional Planning for approval, until such time as all mitigation measures have been implemented and completed. Additional reports shall be submitted as required by the Director of Regional Planning.
45. Within 15 days of the approval of this grant, the permittee shall deposit the sum of \$1,500 with Regional Planning to defray the cost of reviewing the permittee's reports and verifying compliance with the Mitigation Monitoring Program. The permittee shall retain the services of a qualified Environmental/Mitigation Monitoring Consultant, subject to the approval of the Director of Regional Planning, to ensure that all applicable mitigation measures are implemented and reported in the attached Mitigation Monitoring Program.

Attachment

**MITIGATION MONITORING PROGRAM**  
**PROJECT NO. TR65157/ RENVT200600017**

Mitigation		Action Required	When Monitoring to Occur	Responsible Agency or Party	Monitoring Agency or Party
<b>Traffic</b>					
1	Improve Vermont Avenue / Sepulveda Boulevard intersection to relieve traffic congestion.	Pay DPW 29.2% of intersection improvement costs.	Prior to issuance of building permit.	Applicant	DPW
<b>Environmental Hazard</b>					
2	Remediate contaminated soil.	Implement Remediation Action Plan remediation measures.	Prior to issuance of Grading Permit	Applicant	FDP and DPW
<b>Mitigation Compliance</b>					
3	As a means of ensuring compliance of above mitigation measures, the applicant and subsequent owner(s) are responsible for submitting compliance report to the Department of Regional Planning for review, and for replenishing the mitigation monitoring account if necessary until such as all mitigation measures have been implemented and completed.	Submittal and approval of compliance report and replenishing mitigation monitoring account	Yearly and as required until all measures are completed.	Applicant and subsequent owner(s)	DRP

**Re: VESTING TENTATIVE TRACT MAP NUMBER 065157  
SECOND SUPERVISORIAL DISTRICT/THREE-VOTE MATTER**

Dear Supervisors:

Your Board previously conducted a hearing regarding the above-referenced subdivision which proposes a 60-unit condominium project in the Carson Zoned District. At the conclusion of the hearing, you indicated an intent to approve the subdivision and instructed us to prepare the appropriate findings and conditions. Enclosed are such findings and conditions for your consideration.

Very truly yours,

RAYMOND G. FORTNER, JR.  
County Counsel

**FINDINGS OF THE BOARD OF SUPERVISORS  
AND ORDER  
VESTING TENTATIVE TRACT MAP NUMBER 065157**

1. The Los Angeles County Regional Planning Commission ("Commission") conducted a noticed public hearing in the matter of Vesting Tentative Tract Map No. 065157 on February 28, 2007. Vesting Tentative Tract Map No. 065157 was heard concurrently with Zone Change No. 2006-00002-(2) and Conditional Use Permit No. 2006-00018-(2). The Board of Supervisors ("Board") conducted its duly noticed public hearing on the aforementioned applications on October 9, 2007.
2. Vesting Tentative Tract Map No. 065157 proposes a residential development of one multi-family lot with 60 new detached condominium units on 5.22 gross acres.
3. The subject site is located at 22700 Meyler Avenue in the Carson Zoned District.
4. The rectangularly-shaped property is 5.22 gross acres (4.38 net acres) in size with level topography.
5. Access to the proposed development is provided by Meyler Avenue, a 50-foot wide dedicated street, and 228th Street, a 60-foot wide dedicated street.
6. The project site is currently zoned A-1 (Light Agricultural - 5,000 Square Feet Minimum Required Lot Area) which zoning was established by Ordinance No. 6529 and became effective on October 6, 1954. The project proposes a zone change to R-2-DP (Two Family Residential - 5,000 Square Feet Minimum Required Lot Area - Development Program).
7. Surrounding zoning includes A-1 to the north and west and R-1 (Single-Family Residence - 5,000 Square Feet Minimum Required Lot Area) to the east and south.
8. The subject property consists of two lots currently used as a nursery. Surrounding uses include single-family residences, multi-family residences, and vacant properties to the north, and single-family residences to the east, west, and south.
9. The project is consistent with the proposed R-2-DP zoning classification. Detached units are permitted in the R-2 zone pursuant to Section 22.20.170 of the Los Angeles County Code ("County Code"). The proposed density of 60 dwelling units is consistent with the maximum 90 dwelling units that can be accommodated by the R-2 zoning. The applicant has requested a conditional

use permit ("CUP") to ensure compliance with the Development Program zone pursuant to Section 22.40.040 of the County Code, which allows development of the site consistent with the approved development program.

10. The property is depicted in the Low Density Residential ("1") land use category of the Los Angeles Countywide General Plan ("General Plan"). The proposed 60 dwelling units, approximately 11.47 dwelling units per acre, exceed the density allowed under the Low Density Residential category. However, the General Plan supports concentrated urban development. Specifically, "infill" residential development at "slightly higher" densities may be permitted (i.e., infill parcels designated for a Low Density Residential density may be developed at the Low-Medium Residential density of six to 12 dwelling units per acre).

11. To qualify for the higher density, a project must comply with the following criteria:

- a. The proposed project will not disrupt sound residential neighborhoods nor adversely affect the character of the established community;

The proposed project will not disrupt the character of the established neighborhood which consists mainly of single-family homes with multi-family buildings located on Meyler and 228th Streets within a 500-foot radius. The project proposes one multi-family lot with 60 detached condominiums which is similar in density and development to the surrounding neighborhood.

- b. The proposed project site is of sufficient size to accommodate design features (setbacks, landscaping, buffering, etc.) necessary to ensure compatibility with surrounding uses;

While the proposed project does not meet the criteria for sufficient lot size to accommodate density, it does meet the criteria for landscaping and guest parking. Each unit will have a private yard with a minimum of 250 square feet and the project will provide 16 guest parking spaces, one more than what is required.

- c. The proposed project will not overburden existing public services and facilities;

The proposed project will not overburden existing public services or facilities as it has been reviewed by Los Angeles County Departments of Public Works ("Public Works"), Fire, Parks and Recreation, Health Services, and Regional Planning ("Regional Planning"), and they have all issued appropriate clearances.

- d. The proposed use will not disrupt or adversely impact local traffic and parking conditions; and

The proposed project has been reviewed by the Traffic and Lighting Division of Public Works and it has been determined that it will not disrupt or adversely affect local traffic. This project will provide a two-car garage with each unit as well as 16 guest parking spaces and will not disrupt the parking conditions in the surrounding neighborhood.

- e. Compatibility of the proposed project with surrounding uses, in terms of scale, intensity, and design, is ensured through specific site plan review.
- 12. Zone Change No. 2006-00002-(2) is a related request to authorize change from zone of A-1 to R-2-DP. The Development Program designation will ensure the development occurring after rezoning will conform to approved plans and will ensure compatibility with the surrounding area. As applied in this case, the conditional use permit will restrict the development of the rezoned site to the proposed residential development as shown on the site plan marked Exhibit "A." No other development will be permitted on the property unless a new conditional use permit is first obtained.
- 13. As indicated, Conditional Use Permit No. 2006-00018-(2) is a related request to ensure compliance with the Development Program zone. As part of the development program, the applicant is requesting modification of the maximum permitted wall height of three-and-one-half feet in the front yard setback to allow a six-foot high masonry wall, as depicted on the approved Exhibit "A."
- 14. Approval of the vesting tentative tract map and conditional use permit will not become effective until the Board has adopted an ordinance effecting the proposed change of zone, and such ordinance has become effective.
- 15. The applicant's site plan, labeled as Exhibit "A," depicts a 5.22-acre rectangularly-shaped property developed with 60 detached condominium units within an enclosed development. The residential units are arranged along the four main internal private driveways. Two points of entry and exit are proposed on Meyler Avenue and 228th Street. Sixteen guest parking spaces are provided along the two private driveways fronting on Meyler Avenue. Four spaces will be located on each side of the driveways for a total of eight spaces at both entrances. For the Los Angeles County Fire Department ("Fire Department"), two hammer head turnarounds are also proposed. No guest parking spaces or hammer head turnarounds are proposed for the two private driveways fronting on 228th Street. Of the 60 detached condominiums units, individual units range in size from 1,617 to 1,966 square feet. The units reach a maximum height of 25 feet, three inches. Each unit has two covered parking spaces. Combined with the 16 guest parking spaces, the project provides a total of 136 parking spaces. Approximately 1.6 acres (36 percent of the subject property) of open

area are provided within the development as well as individual private areas and landscaped common courtyard areas. Grading consists of 3,000 cubic yards of cut and fill to be balanced onsite. A maximum six-foot wall is proposed along the perimeter of the property to provide a buffer from adjacent residential homes.

16. Prior to the hearing before the Commission, one comment letter was received in opposition to the project, expressing concerns related to existing congestion on Meyler Avenue and 228th Street and suggesting that both streets are unable to accommodate additional traffic from the project. Staff also received one telephone call from an adjoining property owner regarding loss of privacy due to the proposed two-story residences extending above the proposed six-foot high wall.
17. During the Commission's February 28, 2007 public hearing, a presentation from staff as well as testimony from the applicant and the public was received.
18. Staff provided comments that the multi-family lot with 60 new detached condominium units was consistent under R-2-DP zoning. Staff also indicated that the CUP would allow a modification of the yard requirements to permit over-height walls of a maximum six feet tall within the front yard (western property boundary).
19. The applicant's representative stated that they tried to create a condominium project that would be similar in character to the surrounding single-family homes. The applicant's representative also stated that each unit would have private front and rear yards.
20. The opposition testified that the proposed development would increase traffic congestion within the surrounding local streets. The opposition also stated that they had concerns related to the increase of off-site street parking due to multiple families residing in the condominium units.
21. During the public hearing, the Commission asked if the two existing cul-de-sacs could be used as tot lots, private parks, or additional guest parking. The Commission also inquired if proposed units could be attached creating more open space. The applicant's representative stated that a private park was not necessary since 10 public parks existed within a 1½-mile radius of the project site. The applicant's representative indicated that he had met with homeowners within a 300-foot wide radius and they preferred this type of development on the subject property.
22. On February 28, 2007, after taking all testimony, the Commission closed the public hearing and indicated its intent to adopt the Mitigated Negative Declaration; approve Vesting Tentative Tract Map No. 065157, with modifications

as discussed; and Conditional Use Permit No. 2006-00018-(2), with final review of the redesign by the Los Angeles County Subdivision Committee and instructed staff to prepare the final documents for approval.

23. A revision with changes was submitted on March 20, 2007, and was cleared by the Subdivision Committee on May 1, 2007.
24. The Board conducted its duly noticed public hearing on the proposal on October 9, 2007. No testimony in opposition to the proposal was received during the hearing.
25. The project will be required to comply with the development standards of the R-2-DP zone pursuant to Sections 22.20.210 through 22.20.250 and 22.40.070 of the County Code, except as otherwise modified by Conditional Use Permit No. 2006-00018-(2).
26. The technical and engineering aspects of the project have been resolved to the satisfaction of the Departments of Public Works, Fire, Parks and Recreation, Public Health, and Regional Planning.
27. The subject property is of adequate size and shape to accommodate the yards, walls, fences, parking, landscaping, and other accessory structures, as shown on the site plan and Vesting Tentative Tract Map No. 065157, except as otherwise modified by Conditional Use Permit Case No. 2006-00018-(2).
28. Compatibility with surrounding land uses will be ensured through the related zone change, subdivision, conditional use permit, and environmental conditions.
29. There is no evidence that the proposed project will be materially detrimental to the use, enjoyment, or valuation of property of other persons located in the vicinity of the project site.
30. Modified conditions warrant a revision in the zoning plan as it pertains to the subject property as urban residential housing is needed.
31. The subject property is a proper location for the recommended zoning classification in that the recommended zoning classification for the subject property is compatible with adjacent and/or nearby zoning classifications and/or land uses.
32. The adoption of the proposed zoning classification will be in the interest of public health, safety, and general welfare, and in conformity with good planning practices in that the proposed zoning classification implements a project that promotes higher-density residential development within under-utilized nursery land.

33. Adoption of the proposed zone change will enable the development of the subject property as proposed.
34. The site is physically suitable for the type of development and density being proposed since the property has adequate building sites to be developed in accordance with the County grading ordinance, has access to a County-maintained street, will be served by public sewers, will be provided with water supplies and distribution facilities to meet anticipated domestic and fire protection needs, and will have flood hazards and geologic hazards mitigated in accordance with the requirements of Public Works.
35. The design of the subdivision and the type of improvements will not cause serious public health problems since sewage disposal, storm drainage, fire protection, and geologic and soils factors are addressed in the conditions of approval.
36. The design of the subdivision and the proposed improvements will not cause substantial environmental damage or substantial and avoidable injury to fish or wildlife or their habitat. The subject property is not located in a Significant Ecological Area and does not contain any stream courses or high value riparian habitat.
37. The design of the subdivision provides for future passive or natural heating or cooling opportunities therein.
38. The division and development of the property in the manner set forth on this map will not unreasonably interfere with the free and complete exercise of public entity and/or public utility rights-of-way and/or easements within this map, since the design and development as set forth in the conditions of approval and on the tentative tract map provide adequate protection for any such easements.
39. Pursuant to Article 3.5 of the Subdivision Map Act, the proposed subdivision does not contain or front upon any public waterway, river, stream, coastline, shoreline, lake, or reservoir.
40. The discharge of sewage from this land division into the public sewer system will not violate the requirements of the California Regional Water Control Board pursuant to Division 7 (Commencing with section 13000) of the California Water Code.
41. The housing and employment needs of the region were considered and balanced against the public service needs of local residents and available fiscal and environmental resources when the project was determined to be consistent with the General Plan.

42. This tract map has been submitted as a "vesting" tentative map. As such, it is subject to the provisions of Sections 21.38.010 through 21.38.080 of the County Code.
43. An Initial Study was prepared for this project in compliance with the California Environmental Quality Act (Public Resources Code section 21000 et. seq.) ("CEQA"), the State CEQA Guidelines, and the Environmental Document Reporting Procedures and Guidelines of the County of Los Angeles. The Initial Study identified potentially significant effects of the project on traffic and environmental hazards. The applicant made or agreed to revisions in the project that would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur. The Initial Study and project revisions showed that there is no substantial evidence, in light of the whole record before the Board, that the project, as revised, may have a significant effect on the environment. Based on the Initial Study and project revisions, a Mitigated Negative Declaration has been prepared for this project. Conditions or changes in the proposed project that are necessary in order to ensure the proposed project will not have a significant effect on the environment have been included in the Mitigation Monitoring Program.
44. After consideration of the Mitigated Negative Declaration and Mitigation Monitoring Program together with any comments received during the public review process, the Board found on the basis of the whole record before it that there is no substantial evidence the project, as revised, will have a significant effect on the environment; found the Mitigated Negative Declaration reflected the independent judgment and analysis of the Commission; and adopted the Mitigated Negative Declaration and Mitigation Monitoring Program.
45. This project has an effect on fish and wildlife resources. Therefore, the project is not exempt from California Department of Fish and Game fees pursuant to section 711.4 of the California Fish and Game Code.
46. Approval of this subdivision is conditioned on the subdivider's compliance with the attached conditions of approval as well as the conditions of approval for Conditional Use Permit No. 2006-00018-(2) and the Mitigation Monitoring Program.
47. The location of the documents and other materials constituting the record of proceedings upon which the Board's decision is based in this matter is the Department of Regional Planning, 13th Floor, Hall of Records, 320 West Temple Street, Los Angeles, California 90012. The custodian of such documents and materials shall be the Section Head of the Land Divisions Section, Regional Planning.

**THEREFORE, THE BOARD OF SUPERVISORS:**

1. Indicates that it previously adopted the Mitigated Negative Declaration and certified that it had been completed in compliance with CEQA and the State and County guidelines related thereto.
2. Approves Vesting Tentative Tract Map No. 065157 subject to the attached conditions and recommendations of the Los Angeles County Subdivision Committee.

**CONDITIONS OF APPROVAL**  
**VESTING TENTATIVE TRACT MAP NUMBER 065157**

1. Conform to the requirements of Title 21 of the Los Angeles County Code ("County Code") (Subdivision Ordinance). Also, conform to the requirements of Conditional Use Permit Case No. 2006-00018-(2) and the Mitigation Monitoring Program.
2. Except as otherwise specified in Condition No. 3 and by Conditional Use Permit No. 2006-00018-(2), conform to the applicable requirements of the R-2-DP zone (Two Family Residential - 5,000 Square Feet Minimum Required Lot Area - Development Program).
3. In accordance with Conditional Use Permit No. 2006-00018-(2), this land division is approved within a Development Program zone as a condominium development of 60 detached units with 1.61 acres (36 percent of the subject property) of landscape and open space areas.
4. Recordation of the final map is contingent upon approval of Zone Change Case No. 2006-00002-(2) by the Los Angeles County Board of Supervisors and the effectuation of an ordinance changing the zoning of the subject property from A-1 to R-2-DP.
5. Provide at least 50 feet of street frontage on the property line for the lot.
6. Submit a copy of the project Conditions, Covenants and Restrictions ("CC&Rs") to the Los Angeles County Department of Regional Planning ("Regional Planning") for review and approval.
7. Within 15 days of approval, submit evidence that the conditions of the associated Conditional Use Permit Case No. 2006-00018-(2) have been recorded.
8. Place a note or notes on the final map, to the satisfaction of Regional Planning, that this subdivision is approved as a condominium project for a total of 60 residential units whereby the owners of the units of air space will hold an undivided interest in the common areas, which will in turn provide the necessary access and utility easements for the units.
9. Provide in the CC&Rs a method for the continuous maintenance of the common areas, including the driveway and the lighting system along all walkways, to the satisfaction of Regional Planning.
10. Reserve in the CC&Rs the right for all residents within the condominium project to use the driveways for access and the guest parking spaces throughout the subdivision.

11. Three copies of a landscape plan which may be incorporated into a revised site plan shall be submitted and approved by the Director of Regional Planning ("Director of Planning") as required by Conditional Use Permit Case No. 2006-00018-(2) prior to issuance of a grading permit and/or building permit.
12. Plant at least one tree of a non-invasive species within the front yard of the multi-family lot, and a minimum additional 14 trees within the project site. The location and the species of said trees shall be incorporated into a site plan or landscape plan. Prior to final map approval, the site/landscaping plan shall be approved by the Director of Planning and a bond shall be posted with the Los Angeles County Department of Public Works ("Public Works") or other verification shall be submitted to the satisfaction of Regional Planning to ensure the planting of the required trees.
13. Pursuant to Chapter 22.72 of the County Code, the subdivider or his successor in interest shall pay a fee to the Los Angeles County Librarian prior to issuance of any building permit, as this project's contribution to mitigating impacts on the library system in the Southeast Planning Area, in the amount required by Chapter 22.72 at the time of payment and provide proof of payment to Regional Planning. The current fee amount is \$738 per dwelling unit (\$738 X 60 dwelling units = \$44,280). The subdivider may contact the County Librarian at (562) 940-8450 regarding payment of fees.
14. Within five days of the tentative map approval date, remit a \$1,850 processing fee payable to the County of Los Angeles in connection with the filing and posting of a Notice of Determination in compliance with section 21152 of the California Public Resources Code and section 711 of the California Fish and Game Code to defray the costs of fish and wildlife protection and management incurred by the California Department of Fish and Game. No project subject to this requirement is final, vested, or operative until the fee is paid.
15. The mitigation measures set forth in the "Project Mitigation Measures Due to Environmental Evaluation" section of the Mitigated Negative Declaration for the project are incorporated by this reference and made conditions of Vesting Tentative Tract Map No. 065157. Comply with all such mitigation measures in accordance with the attached Mitigation Monitoring Program. Within 15 days of approval, record a covenant and agreement and submit a copy to Regional Planning for approval, agreeing to the mitigation measures imposed by the Mitigated Negative Declaration for this project. As a means of ensuring the effectiveness of the mitigation measures, the subdivider shall submit mitigation monitoring reports to Regional Planning as frequently as may be required by the department. The reports shall describe the status of the subdivider's compliance with the required mitigation measures.

16. Upon completion of the appeal period, deposit the sum of \$1,500 with Regional Planning in order to defray the cost of reviewing the subdivider's reports and verifying compliance with the information contained in the reports required by the Mitigation Monitoring Program.
17. The subdivider shall defend, indemnify, and hold harmless the County, its agents, officers, and employees from any claim, action, or proceeding against the County or its agents, officers, and employees to attack, set aside, void, or annul this tract map approval, or related discretionary approvals, whether legislative or quasi-judicial, which action is brought within the applicable time period of Government Code section 65499.37 or any other applicable limitation period. The County shall promptly notify the subdivider of any claim, action, or proceeding and the County shall cooperate fully in the defense. If the County fails to promptly notify the subdivider of any claim, action, or proceeding, or if the County fails to cooperate fully in the defense, the subdivider shall not thereafter be responsible to defend, indemnify, or hold harmless the County.
18. In the event that any claim, action, or proceeding as described above is filed against the County, the subdivider shall within 10 days of the filing pay Regional Planning an initial deposit of \$5,000 from which actual costs shall be billed and deducted for the purpose of defraying the expense involved in Regional Planning's cooperation in the defense, including but not limited to, depositions, testimony, and other assistance to the subdivider or subdivider's counsel. The subdivider shall also pay the following supplemental deposits, from which actual costs shall be billed and deducted:
  - a. If during the litigation process, actual costs incurred reach 80 percent of the amount on deposit, the subdivider shall deposit additional funds to bring the balance up to the amount of the initial deposit. There is no limit to the number of supplemental deposits that may be required prior to completion of the litigation.
  - b. At the sole discretion of the subdivider, the amount of an initial or supplemental deposit may exceed the minimum amounts defined herein.

The cost for collection and duplication of records and other related documents will be paid by the subdivider according to Los Angeles County Code Section 2.170.010.

Except as modified herein above, this approval is subject to all those conditions set forth in Conditional Use Permit Case No. 2006-00018-(2), the attached mitigation monitoring program, and the attached reports recommended by the Los Angeles County Subdivision Committee, which consists of members of the Departments of Public Works, Fire Department, Parks and Recreation, and Public Health.

COUNTY OF LOS ANGELES  
DEPARTMENT OF PUBLIC WORKS  
LAND DEVELOPMENT DIVISION – SUBDIVISION  
TRACT NO. 065157 (Rev.)

TENTATIVE MAP DATED 03-20-2007  
TENTATIVE MAP DATED 03-20-2007

The following reports consisting of 15 pages are the recommendations of Public Works.

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. Details and notes shown on the tentative map are not necessarily approved. Any details or notes which may be inconsistent with requirements of ordinances, general conditions of approval, or Department policies must be specifically approved in other conditions, or ordinance requirements are modified to those shown on the tentative map upon approval by the Advisory agency.
2. Easements are tentatively required, subject to review by the Director of Public Works to determine the final locations and requirements.
3. Easements shall not be granted or recorded within areas proposed to be granted, dedicated, or offered for dedication for public streets, highways, access rights, building restriction rights, or other easements until after the final map is filed with the Registrar-Recorder/County Clerk's Office. If easements are granted after the date of tentative approval, a subordination must be executed by the easement holder prior to the filing of the final map.
4. In lieu of establishing the final specific locations of structures on each lot/parcel at this time, the owner, at the time of issuance of a grading or building permit, agrees to develop the property in conformance with the County Code and other appropriate ordinances such as the Building Code, Plumbing Code, Grading Ordinance, Highway Permit Ordinance, Mechanical Code, Zoning Ordinance, Undergrounding of Utilities Ordinance, Water Ordinance, Sanitary Sewer and Industrial Waste Ordinance, Electrical Code, and Fire Code. Improvements and other requirements may be imposed pursuant to such codes and ordinances.
5. All easements existing at the time of final map approval must be accounted for on the approved tentative map. This includes the location, owner, purpose, and recording reference for all existing easements. If an easement is blanket or indeterminate in nature, a statement to that effect must be shown on the tentative map in lieu of its location. If all easements have not been accounted for, submit a corrected tentative map to the Department of Regional Planning for approval.

6. Adjust, relocate, and/or eliminate lot lines, lots, streets, easements, grading, geotechnical protective devices, and/or physical improvements to comply with ordinances, policies, and standards in effect at the date the County determined the application to be complete all to the satisfaction of Public Works.
7. Prior to final approval of the tract map submit a notarized affidavit to the Director of Public Works, signed by all owners of record at the time of filing of the map with the Registrar-Recorder/County Clerk's Office, stating that any proposed condominium building has not been constructed or that all buildings have not been occupied or rented and that said building will not be occupied or rented until after the filing of the map with the Registrar-Recorder/County Clerk's Office.
8. Place standard condominium notes on the final map to the satisfaction of Public Works.
9. Label driveways and multiple access strips as "Private Driveway and Fire Lane" and delineate on the final map to the satisfaction of Public Works.
10. Reserve reciprocal easements for drainage, ingress/egress, sewer, water, utilities, and maintenance purposes, etc., in documents over the private driveways to the satisfaction of Public Works.
11. Quitclaim or relocate easements running through proposed structures.
12. Remove existing structures prior to final map approval. Demolition permits are required from the Building and Safety office.
13. A final tract map must be processed through the Director of Public Works prior to being filed with the Registrar-Recorder/County Clerk's Office.
14. Prior to submitting the tract map to the Director of Public Works for examination pursuant to Section 66442 of the Government Code, obtain clearances from all affected Departments and Divisions, including a clearance from the Subdivision Mapping Section of the Land Development Division of Public Works for the following mapping items; mathematical accuracy; survey analysis; and correctness of certificates, signatures, etc.
15. A final guarantee will be required at the time of filing of the final map with the Registrar-Recorder/County Clerk's Office.

TENTATIVE MAP DATED 03-20-2007

TENTATIVE MAP DATED 03-20-2007

16. Within 30 days of the approval date of this land use entitlement or at the time of first plan check submittal, the applicant shall deposit the sum of \$2,000 (Minor Land Divisions) or \$5,000 (Major Land Divisions) with Public Works to defray the cost of verifying conditions of approval for the purpose of issuing final map clearances. This deposit will cover the actual cost of reviewing conditions of approval for Conditional Use Permits, Tentative Tract and Parcel Maps, Vesting Tentative Tract and Parcel Maps, Oak Tree Permits, Specific Plans, General Plan Amendments, Zone Changes, CEQA Mitigation Monitoring Programs and Regulatory Permits from State and Federal Agencies (Fish and Game, USF&W, Army Corps, RWQCB, etc.) as they relate to the various plan check activities and improvement plan designs. In addition, this deposit will be used to conduct site field reviews and attend meetings requested by the applicant and/or his agents for the purpose of resolving technical issues on condition compliance as they relate to improvement plan design, engineering studies, highway alignment studies and tract/parcel map boundary, title and easement issues. When 80% of the deposit is expended, the applicant will be required to provide additional funds to restore the initial deposit. Remaining balances in the deposit account will be refunded upon final map recordation

HYDROLOGY, DRAINAGE, AND GRADING UNIT

TRACT MAP NO. 065157

REVISED TENTATIVE MAP DATED 03/20/07  
EXHIBIT MAP 03/20/07

**DRAINAGE CONDITIONS**

1. Approval of this map pertaining to drainage is recommended.

=====

**GRADING CONDITIONS:**

1. A grading plan and soil and geology report must be submitted and approved prior to approval of the final map. The grading plans must show and call out the construction of at least all the drainage devices and details, the paved driveways, the elevation and drainage of all pads, and the SUSMP devices. The applicant is required to show and call out all existing easements on the grading plans and obtain the easement holder approvals prior to the grading plans approval.
2. Comply with the requirements of the drainage concept / Standard Urban Stormwater Mitigation Plan (SUSMP) / hydrology study plan which was conceptually approved on 04/26/07 to the satisfaction of Public Works.

TENTATIVE MAP DATED 03-20-07 4th Revision and Exhibit  
LOCATION Harbor City  
REPORT DATE \_\_\_\_\_  
REPORT DATE \_\_\_\_\_

☐ TENTATIVE MAP FEASIBILITY IS RECOMMENDED FOR APPROVAL. PRIOR TO FILING THE FINAL LAND DIVISION MAP, THE FOLLOWING CONDITIONS MUST BE FULFILLED:

- ☐ The final map must be approved by the Geotechnical and Materials Engineering Division (GMED) to assure that all geotechnical factors have been properly evaluated.
- ☐ A grading plan must be geotechnically approved by the GMED. This grading plan must be based on a detailed engineering geology report and/or soils engineering report and show all recommendations submitted by them. It must also agree with the tentative map and conditions as approved by the Planning Commission. If the subdivision is to be recorded prior to the completion and acceptance of grading, corrective geologic bonds will be required.
- ☐ All geologic hazards associated with this proposed development must be eliminated,  
or  
delineate restricted use areas, approved by the consultant geologist and/or soils engineer, to the satisfaction of the Geology and Soils Sections, and dedicate to the County the right to prohibit the erection of buildings or other structures within the restricted use areas.
- ☐ A statement entitled: "Geotechnical Note(s), Potential Building Site: For grading and corrective work requirements for access and building areas for Lot(s) No(s). \_\_\_\_\_ refer to the Soils Report(s) by \_\_\_\_\_, dated \_\_\_\_\_."
- ☐ The Soils Engineering review dated \_\_\_\_\_ is attached.

☒ TENTATIVE MAP IS APPROVED FOR FEASIBILITY. THE FOLLOWING INFORMATION IS APPLICABLE TO THIS DIVISION OF LAND:

- ☐ This project may not qualify for a waiver of final map under section 21.48.140 of the Los Angeles County Title 21 Subdivision Code.
- ☒ The subdivider is advised that approval of this division of land is contingent upon the installation and use of a sewer system.
- ☒ Soils engineering reports may be required prior to approval of building or grading plans.
- ☐ Groundwater is less than 10 feet from the ground surface on lots \_\_\_\_\_
- ☒ The Soils Engineering review dated 4-18-07 is attached.

Review of:

Tentative Tract Map and Exhibit "A" Dated by Regional Planning 3/20/07 (rev.)

ACTION:

Tentative Map feasibility is recommended for approval, subject to the condition below:

REMARKS:

1. A soils report may be required for review of a grading or building plan. The report must comply with the provisions of "**Manual for Preparation of Geotechnical Reports**" prepared by County of Los Angeles, Department of Public Works. The Manual is available on the Internet at the following address: <http://ladpw.org/gmed/manual.pdf>
2. At the grading plan stage, submit two sets of grading/building plans to the Soils Section for verification of compliance with County codes and policies.

Prepared by \_\_\_\_\_

Date 4/18/07

**NOTICE:** Public safety, relative to geotechnical subsurface exploration shall be provided in accordance with current codes for excavations, inclusive of the Los Angeles County Code, Chapter 11.48, and the State of California, Title 8, Construction Safety Orders.  
P:\gmepub\Soils Review\Jeremy\TR 65157, Meyler Avenue and 228th Street, Harbor City, TTM-A\_5.doc

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. Provide property line return radius of 13 feet or to the satisfaction of Public Works at the intersection of 228th Street and Meyler Avenue.
2. Dedicate right of way 30 feet from centerline on Meyler Avenue. Five feet of additional right of way along the property frontage beyond the existing right of way line is required.
3. Dedicate right of way 30 feet from centerline along the property frontage on 228th Street, if not already dedicated.
4. Dedicate complete vehicular access rights on 226th Street and 227th Street.
5. Close any unused driveway with standard curb, gutter, and sidewalk along the property frontage on 228th Street and Meyler Avenue to the satisfaction of Public Works.
6. Repair any displaced, broken, or damaged curb, gutter, pavement, and sidewalk along the property frontage on 228th Street and Meyler Avenue to the satisfaction of Public Works.
7. Construct 5 feet wide sidewalk adjacent to the property line along the property frontage on 228th Street to align with the existing sidewalk east of the project location. Remove the existing 5 feet wide sidewalk adjacent to the curb along the property frontage on 228th Street.
8. Construct additional sidewalk pop-out in the vicinity of any above ground utilities to meet current Americans with Disabilities Act (ADA) requirements along the property frontage on Meyler Avenue to the satisfaction of Public Works.
9. Construct parkway improvements (sidewalk, driveway, landings, etc.) that either serve or form a part of a Pedestrian Access Route to meet current ADA requirements along the property frontage on 228th Street and Meyler Avenue to the satisfaction of Public Works.
10. Construct full width sidewalk at the corner return of 228th Street and Meyler Avenue to the satisfaction of Public Works.

TENTATIVE MAP DATE 03-20-2007  
EXHIBIT MAP DATE 03-20-2007

11. If applicable, reconstruct existing curb ramps at the corner return of 228th Street and Meyler Avenue to meet current ADA requirements to the satisfaction of Public Works.
12. Plant street trees along the property frontage on 228th Street and Meyler Avenue to the satisfaction of Public Works. Existing trees in dedicated right of way shall be removed and replaced if not acceptable as street trees.
13. Comply with the following street lighting requirements:
  - a. Provide street lights on concrete poles with underground wiring along the property frontage on 228th Street and Meyler Avenue to the satisfaction of Public Works. Submit street lighting plans as soon as possible for review and approval to the Street Lighting Section of the Traffic and Lighting Division. For additional information, please contact the Street Lighting Section at (626) 300-4726.
  - b. The proposed development, or portions thereof, are not within an existing Lighting District. Annexation and assessment balloting are required. Upon tentative map approval, the applicant shall comply with conditions listed below in order for the Lighting District to pay for the future operation and maintenance of the street lights. The Board of Supervisors must approve the annexation and levy of assessment (should assessment balloting favor levy of assessment) prior to filing of the final subdivision maps for each area with the Registrar-Recorder/County Clerk.
    - (1) Request the Street Lighting Section to commence annexation and levy of assessment proceedings.
    - (2) Provide business/property owner's name(s), mailing address(es), site address, Assessor Parcel Number(s), and Parcel Boundaries in either Microstation or Auto CADD format of territory to be developed to the Street Lighting Section.
    - (3) Submit a map of the proposed development including any roadways conditioned for street lights that are outside the proposed project area to Street Lighting Section. Contact the Street Lighting Section for map requirements and with any questions at (626) 300-4726.

TENTATIVE MAP DATE 03-20-2007  
EXHIBIT MAP DATE 03-20-2007

- c. The annexation and assessment balloting process takes approximately ten to twelve months to complete once the above information is received and approved. Therefore, untimely compliance with the above will result in a delay in receiving approval of the street lighting plans or in filing the final subdivision map for recordation. Information on the annexation and the assessment balloting process can be obtained by contacting Street Lighting Section at (626) 300-4726.
  - d. For acceptance of street light transfer of billing, the area must be annexed into the Lighting District and all street lights in the development, or the current phase of the development, must be constructed according to Public Works approved plans. The contractor shall submit one complete set of "as-built" plans. Provided the above conditions are met, all street lights in the development, or the current phase of the development, have been energized, and the developer has requested a transfer of billing at least by January 1 of the previous year, the Lighting District can assume responsibility for the operation and maintenance of the street lights by July 1 of any given year. The transfer of billing could be delayed one or more years if the above conditions are not met.
- 14. Underground all existing service lines and distribution lines that are less than 50 KV and new utility lines to the satisfaction of Public Works and Southern California Edison. Please contact Construction Division at (626) 458-3129 for new location of any above ground utility structure in the parkway.
  - 15. Prior to final map approval, enter into an agreement with the County franchised cable TV operator (if an area is served) to permit the installation of cable in a common utility trench to the satisfaction of Public Works; or provide documentation that steps to provide cable TV to the proposed subdivision have been initiated to the satisfaction of Public Works.
  - 16. Comply with the mitigation measures identified in the attached letter from our Traffic and Lighting Division dated June 1, 2006. As indicated in the attached letter dated June 1, 2006, "A 40-scale site plan of the project showing locations in relationship to adjacent intersections and driveways shall be submitted to Public Works for review and approval prior to the issuance of building permit." is no longer required.

Mr. Brian Marchetti  
Katz, Okitsu & Associates  
1055 Corporate Center Drive, Suite 300  
Monterey Park, CA 91754

Dear Mr. Marchetti:

**228TH/MEYLER RESIDENTIAL PROJECT  
TENTATIVE TRACT NO. 65157  
CONDITIONAL USE PERMIT 200600018  
TRAFFIC STUDY (MAY 22, 2006)  
HARBOR GATEWAY AREA**

As requested, we have reviewed the above-mentioned document. The proposed project is located at the north-east corner of Meyler Avenue and 228th Street in the unincorporated County of Los Angeles area of Harbor Gateway.

The proposed project consists of the construction of a 60 unit detached single-family residential complex. The proposed project is expected to generate 574 vehicle trips daily with approximately 45 and 61 vehicle trips during the a.m. and p.m. peak hours, respectively.

We generally agree with the traffic study that the traffic generated by the proposed project alone will not significantly impact any County roadways or intersections in the area. We also agree that the cumulative traffic generated this project along with other related projects in the area will significantly impact the following intersection. The project shall pay its fair share of the following recommended mitigation measure:

Vermont Avenue at Sepulveda Boulevard

North approach: One exclusive left-turn lane, two through lanes, and one exclusive right-turn lane instead of one exclusive left-turn lane, one through lane, and one shared through/right-turn lane (add exclusive right-turn lane).

Mr. Brian Marchetti  
June 1, 2006  
Page 2

The project's pro-rata share is 29.2 percent.

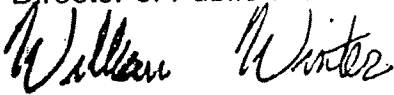

Feasibility studies and cost estimates shall also be submitted to Mr. Sam Richards of our Land Development Review Section for all proposed mitigation measures.

A 40-foot-scale site plan of the project showing access locations in relationship to adjacent intersections and driveways shall be submitted to our Land Development Review Section for review and approval prior to the issuance of building permit. For questions regarding site plan review, please contact Mr. Sam Richards at (626) 300-4842.

If you have any further questions regarding the review of this document, please contact Mr. Jesse Cline of our Traffic Studies Section at (626) 300-4823.

Very truly yours,

DONALD L. WOLFE  
Director of Public Works

Monterey Park, CA 91754-7642

Dear Mr. Calderon:

**TRACT MAP NO. 65157  
VERMONT AVENUE AT SEPULVEDA BOULEVARD  
STRIPING COST ESTIMATE**

As requested, we have reviewed the above-mentioned document and disagree with the estimate as submitted. We have estimated the total cost for the required street improvements for Vermont Avenue at Sepulveda Boulevard to be \$1,900. Based on the projects pro-rata share of 29.2 percent, your projects proportionate share of the cost is \$555.

If you have any questions concerning the cost estimate, please contact Mr. Ghassan Shelleh of our Land Development Review Section at (626) 300-4861.

Very truly yours,

DONALD L. WOLFE  
Director of Public Works

TENTATIVE MAP DATED 03-20-2007  
EXHIBIT MAP DATED 03-20-2007

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. The subdivider shall install and dedicate main line sewers and serve each building/lot with a separate house lateral or have approved and bonded sewer plans on file with Public Works.
2. A sewer area study for the proposed subdivision (PC11952AS, dated 08-10-2006) was reviewed and approved. No additional mitigation measures are required. The approved sewer area study shall remain valid for two years after initial approval of the tentative map. After this period of time, an update of the area study shall be submitted by the applicant if determined to be warranted by Public Works.
3. The subdivider shall send a print of the land division map to the County Sanitation District with a request for annexation. The request for annexation must be approved prior to final map approval.
4. If necessary, install off-site sewer main line to serve this subdivision to the satisfaction of Public Works.
5. Easements are required, subject to review by Public Works to determine the final locations and requirements.
6. Provide any necessary off-site easements to construct the off-site sewer improvements to the satisfaction of Public Works. It shall be the sole responsibility of the subdivider to acquire the necessary easements.

Phone (626) 458-4921

Date 04-26-2007

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. A water system maintained by the water purveyor, with appurtenant facilities to serve all buildings in the land division, must be provided. The system shall include fire hydrants of the type and location (both on-site and off-site) as determined by the Fire Department. The water mains shall be sized to accommodate the total domestic and fire flows.
2. There shall be filed with Public Works a statement from the water purveyor indicating that the water system will be operated by the purveyor, and that under normal conditions, the system will meet the requirements for the land division, and that water service will be provided to each building.
3. Easements shall be granted to the County, appropriate agency or entity for the purpose of ingress, egress, construction and maintenance of all infrastructures constructed for this land division to the satisfaction of Public Works.
4. Submit landscape and irrigation plans for each multi-family lot in the land division, with landscape area greater than 2,500 square feet, in accordance with the Water Efficient Landscape Ordinance.

## FIRE DEPARTMENT

5823 Rickenbacker Road  
Commerce, California 90040

CONDITIONS OF APPROVAL FOR SUBDIVISION - UNINCORPORATED

Subdivision: TR 65157 Map Date March 20, 2007 - Ex. A

C.U.P. \_\_\_\_\_ Map Grid 0756B

- ☐ **FIRE DEPARTMENT HOLD** on the tentative map shall remain until verification from the Los Angeles County Fire Dept. Planning Section is received, stating adequacy of service. Contact (323) 881-2404.
- ☒ Access shall comply with Title 21 (County of Los Angeles Subdivision Code) and Section 902 of the Fire Code, which requires all weather access. All weather access may require paving.
- ☒ Fire Department access shall be extended to within 150 feet distance of any exterior portion of all structures.
- ☐ Where driveways extend further than 150 feet and are of single access design, turnarounds suitable for fire protection equipment use shall be provided and shown on the final map. Turnarounds shall be designed, constructed and maintained to insure their integrity for Fire Department use. Where topography dictates, turnarounds shall be provided for driveways that extend over 150 feet in length.
- ☒ The private driveways shall be indicated on the final map as "Private Driveway and Firelane" with the widths clearly depicted. Driveways shall be maintained in accordance with the Fire Code.
- ☒ Vehicular access must be provided and maintained serviceable throughout construction to all required fire hydrants. All required fire hydrants shall be installed, tested and accepted prior to construction.
- ☐ This property is located within the area described by the Fire Department as "Very High Fire Hazard Severity Zone" (formerly Fire Zone 4). A "Fuel Modification Plan" shall be submitted and approved prior to final map clearance. (Contact: Fuel Modification Unit, Fire Station #32, 605 North Angeleno Avenue, Azusa, CA 91702-2904, Phone (626) 969-5205 for details).
- ☒ Provide Fire Department or City approved street signs and building access numbers prior to occupancy.
- ☐ Additional fire protection systems shall be installed in lieu of suitable access and/or fire protection water.
- ☐ The final concept map, which has been submitted to this department for review, has fulfilled the conditions of approval recommended by this department for access only.
- ☐ These conditions must be secured by a C.U.P. and/or Covenant and Agreement approved by the County of Los Angeles Fire Department prior to final map clearance.
- ☐ The Fire Department has no additional requirements for this division of land.

Comments: Access as indicated on the Exhibit Map is adequate. The proposed Turf Block shall be designed to support 75,000lbs. Submit a gate detail for the proposed emergency gate prior to Final Map clearance.

By Inspector: Janna Masi Date April 25, 2007

Commerce, California 90040

## WATER SYSTEM REQUIREMENTS - UNINCORPORATED

Subdivision No. TR 65157 Tentative Map Date March 20, 2007 - Ex. A

Revised Report yes

- ☐ The County Forester and Fire Warden is prohibited from setting requirements for water mains, fire hydrants and fire flows as a condition of approval for this division of land as presently zoned and/or submitted. However, water requirements may be necessary at the time of building permit issuance.
- ☒ The required fire flow for public fire hydrants at this location is 1500 gallons per minute at 20 psi for a duration of 2 hours, over and above maximum daily domestic demand. 2 Hydrant(s) flowing simultaneously may be used to achieve the required fire flow.
- ☐ The required fire flow for private on-site hydrants is      gallons per minute at 20 psi. Each private on-site hydrant must be capable of flowing      gallons per minute at 20 psi with two hydrants flowing simultaneously, one of which must be the furthest from the public water source.
- ☒ Fire hydrant requirements are as follows:
- Install 1 public fire hydrant(s). Verify / Upgrade existing      public fire hydrant(s).
- Install      private on-site fire hydrant(s).
- ☒ All hydrants shall measure 6"x 4"x 2-1/2" brass or bronze, conforming to current AWWA standard C503 or approved equal. All on-site hydrants shall be installed a minimum of 25' feet from a structure or protected by a two (2) hour rated firewall.
- ☒ Location: As per map on file with the office.
- ☒ Other location:
- ☒ All required fire hydrants shall be installed, tested and accepted or bonded for prior to Final Map approval. Vehicular access shall be provided and maintained serviceable throughout construction.
- ☐ The County of Los Angeles Fire Department is not setting requirements for water mains, fire hydrants and fire flows as a condition of approval for this division of land as presently zoned and/or submitted.
- ☐ Additional water system requirements will be required when this land is further subdivided and/or during the building permit process.
- ☐ Hydrants and fire flows are adequate to meet current Fire Department requirements.
- ☐ Upgrade not necessary, if existing hydrant(s) meet(s) fire flow requirements. Submit original water availability form to our office.

Comments: Per the fire flow test data by California Water Service Company dated 11-27-06, the existing fire hydrant is adequate. Install a new public fire hydrant as shown on the exhibit map. The fire hydrant shall be installed and tested or bonded for prior to Final Map clearance.

All hydrants shall be installed in conformance with Title 20, County of Los Angeles Government Code and County of Los Angeles Fire Code, or appropriate city regulations. This shall include minimum six-inch diameter mains. Arrangements to meet these requirements must be made with the water purveyor serving the area.

DEPARTMENT OF PARKS AND RECREATION

PARK OBLIGATION REPORT

Tentative Map # 65157

DRP Map Date: 03/20/2007

SCM Date: / /

Report Date: 04/25/2007

Park Planning Area # 21

WEST CARSON

Map Type: REV. (REV RECD)

Total Units **60** = Proposed Units **59** + Exempt Units **1**

Sections 21.24.340, 21.24.350, 21.28.120, 21.28.130, and 21.28.140, the County of Los Angeles Code, Title 21, Subdivision Ordinance provide that the County will determine whether the development's park obligation is to be met by:

- 1) the dedication of land for public or private park purpose or,
- 2) the payment of in-lieu fees or,
- 3) the provision of amenities or any combination of the above.

The specific determination of how the park obligation will be satisfied will be based on the conditions of approval by the advisory agency as recommended by the Department of Parks and Recreation.

Park land obligation in acres or in-lieu fees:

ACRES:	0.57
IN-LIEU FEES:	\$192,484

Conditions of the map approval:

The park obligation for this development will be met by:

The payment of \$192,484 in-lieu fees.

Trails:

No trails.

Comments:

Proposed 60 multi-family detached condominium units, with credit for 1 existing house to be removed, net density increase of 59 units.

Contact Patrocenia T. Sobrepeña, Departmental Facilities Planner I, Department of Parks and Recreation, 510 South Vermont Avenue, Los Angeles, California, 90020 at (213) 351-5120 for further information or an appointment to make an in-lieu fee payment.

For information on Hiking and Equestrian Trail requirements contact Trail Coordinator at (213) 351-5135.

## PARK OBLIGATION WORKSHEET

Tentative Map # **65157**      DRP Map Date: **03/20/2007**      SMC Date: **/ /**      Report Date: **04/25/2007**  
 Park Planning Area # **21**      **WEST CARSON**      Map Type: **REV. (REV RECD)**

The formula for calculating the acreage obligation and or In-lieu fee is as follows:

$$(P) \text{ people} \times (0.003) \text{ Goal} \times (U) \text{ nits} = (X) \text{ acres obligation}$$

$$(X) \text{ acres obligation} \times \text{RLV/Acre} = \text{In-Lieu Base Fee}$$

Where: P = Estimate of number of People per dwelling unit according to the type of dwelling unit as determined by the 2000 U.S. Census\*. Assume \* people for detached single-family residences; Assume \* people for attached single-family (townhouse) residences, two-family residences, and apartment houses containing fewer than five dwelling units; Assume \* people for apartment houses containing five or more dwelling units; Assume \* people for mobile homes.

Goal = The subdivision ordinance allows for the goal of 3.0 acres of park land for each 1,000 people generated by the development. This goal is calculated as "0.0030" in the formula.

U = Total approved number of Dwelling Units.

X = Local park space obligation expressed in terms of acres.

RLV/Acre = Representative Land Value per Acre by Park Planning Area.

Total Units **60** = Proposed Units **59** + Exempt Units **1**

	People*	Goal 3.0 Acres / 1000 People	Number of Units	Acre Obligation

Tract Map No. 065157

Vicinity: Carson

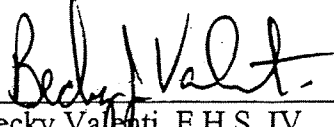

Tentative Tract Map Date: March 20, 2007 (4<sup>th</sup> Revision)

The County of Los Angeles Department of Public Health has no objection to this subdivision and **Vesting Tentative Tract Map 065157** has been cleared for public hearing. The following conditions still apply and are in force:

1. Potable water will be supplied by the **California Water Service**, a public water system, which guarantees water connection and service to all lots. The "will serve" letter from the water company has been received and approved.
2. Sewage disposal will be provided through the public sewer and wastewater treatment facilities of the **Los Angeles County Sanitation District #5** as proposed.

If you have any questions or need additional information, please contact me at (626) 430-5380.

Respectfully,

  
Becky Valenti, E.H.S. IV  
Land Use Program

Los Angeles County  
Department of Regional Planning

*Planning for the Challenges Ahead*

**REVISED PROJECT MITIGATION MEASURES  
DUE TO ENVIRONMENTAL EVALUATION**

James E. Hartl AICP  
Director of Planning

**Project: TR06S157/RENV200600017**

The Department of Regional Planning (DRP) staff has determined that the following mitigation measures for the project are necessary in order to assure that the proposed project will not cause significant impacts on the environment.

The permittee shall deposit the sum of \$1,500.00 with the Department of Regional Planning within 30 days of permit approval in order to defray the cost of reviewing and verifying the information contained in the reports required by the Mitigation Monitoring Program.

1. Prior to issuance of building permit, the applicant shall pay the Department of Public Works 29.2 percent of the Vermont Avenue/Sepulveda Boulevard intersection improvement cost (described in DPW letter of June 1, 2006 to project traffic consultant, Katz, Okitsu & Associates).
2. Prior to issuance of permit, the applicant shall implement all remediation measures identified in the Fire Department Hazardous Materials Division approved Remediation Action Plan (Anacapa Geoservices April 28, 2006).
3. During construction, workers shall park their vehicles on site to reduce impact to traffic flow (Sheriff's letters June 15 & 28, 2006).
4. As a means of ensuring compliance of the above mitigation measures, the applicant and subsequent owner(s) are responsible for submitting annual mitigation compliance report to the DRP for review, and for replenishing the mitigation monitoring account if necessary until such time as all mitigation measures have been implemented and completed.

As the applicant, I agree to incorporate these mitigation measures into the project, and understand that the public hearing and consideration by the Planning Commission will be on the project as mitigation measures.
